PROFESSIONAL SUMMARY

IT Support Specialist with hands-on experience supporting hospital clinical and administrative teams. Builds and maintains Google Workspace workflows using Forms, Sheets, and Apps Script to improve appointment routing, patient data handling, and maintenance tracking. Uses AI tools such as FreeBuff and Claude to prototype workflow logic, draft procedures, and improve support documentation faster and more consistently. Provides end-user troubleshooting for account access, connectivity, and system-usage issues across a hospital environment. Focused on improving support consistency, reducing manual handling, and keeping daily operations organized.

EMPLOYMENT HISTORY

IT Support Specialist — **Labo District Hospital** 07/2026 – Present

- Built AI-assisted workflows in Google Forms, Sheets, Apps Script, ChatGPT, and Claude to streamline appointment routing and patient data handling for clinical and administrative teams.
- Standardized maintenance requests and follow-up tracking in Google Workspace, improving visibility and helping keep daily hospital operations organized.
- Created clear documentation and step-by-step procedures for staff so support tools could be used consistently and manual handling could be reduced.

IT Support Intern — **Labo District Hospital** 03/2026 – 05/2026

- Provided frontline support for hospital users with account access, connectivity, and basic system-usage troubleshooting to keep daily work moving.
- Monitored LAN clients and hardware status, logged issues, and escalated recurring problems to support faster resolution and better visibility.
- Supported the use of medical administration systems while helping maintain organized, responsive daily operations.
